B-BBEE Rating: Level 2
NHBRC Reg #: 1-160069578

A BRIEF STORY ABOUT THE COMPANY

The company was established as a result of the amalgamation of different Expertise from the Civil and Landscape Development field which combined to form a Holistic Civil and Landscape Development Company. Since 2007, our expert services included qualified Landscape Architects, Horticulturalists, Civil, Turf, Water Supply, and Irrigation Specialists.

We, therefore, deliver a comprehensive and complete Development service from Project Inception, Planning, and Construction right through to Final Handover and Maintenance afterward. Our Specialists, Site Managers, and other staff from the company are experienced and fully capable of handling their respective responsibilities as can be seen from our vast array of successfully completed projects.

BRINGING IDEAS AND INNOVATION TO LIFE THROUGH DEVELOPMENTS

LANDSCAPING

ABOUT THE PRODUCT

We have an experienced team that provides professional contract implementation services. Our contracting teams are well equipped with both knowledge and equipment to tackle any Landscaping or 'Urban Greening' project of any size which is the reason for our CIDB grading of 6SH.

Over several years, we have developed close relationships with a large number of suppliers, consultants, and sub-contractors to provide materials of high quality and assist us where necessary to ensure a successful project.

We are also constantly striving to investigate and accustom ourselves to new and evolving materials, products, and implementation methods to provide our clients with the optimum results and products.

SERVICES

- Corporate, Retail & Residential Developments of all sizes
- Urban Greening Projects
- Parks, Cemeteries, Swimming Pools, and other Public Open spaces
- Sports Fields and Facilities
- Landscape Maintenance
- Nursery for the supply of planting

IRRIGATION, PUMPS, AND WATER SUPPLY SYSTEMS

ABOUT THE PRODUCT

We provide specialized services in the design and installation of irrigation, pumps, and water supply systems. Our irrigation designs are crafted with a focus on water efficiency and cost-effectiveness, ensuring that you get the most out of every drop. We use only the highest quality materials and trusted brands from our reputable suppliers, guaranteeing reliability and longevity.

Our expert team, comprised of experienced professionals, ensures meticulous supervision and top-notch workmanship in every project. From planning to execution, we maintain the highest standards and all our systems come with a guarantee of quality. Whether for residential, commercial agricultural, or industrial applications, our comprehensive solutions are tailored to meet your unique water management needs.

SERVICES

- Sustainable water Supply, Storage, Treatment and Irrigation Solutions
- Water Harvesting and Storage
- Water supply and boreholes
- Pump and Filtration Systems
- Agricultural and Domestic irrigation systems
- Automated and manual irrigation systems
- Irrigation Designs and Programs

REHABILITATION

ABOUT THE PRODUCT

At ENDEMIC, we share a passion for nature and its natural processes. We are therefore dedicated to restoring damaged Landscapes to function in an ecologically sustainable manner.

Our team has extensive knowledge and experience of the drastic and sometimes subtle intervention required to achieve this. We embrace the patience and commitment to truly achieve success with Environmental Rehabilitation.

Our Civil ability together with our landscaping equipment allows us to engage in large projects from shaping, soiling, and composting to seeding and planting as well as water supply to rehabilitated areas. We also perform long-term maintenance on these areas to ensure success.

SERVICES

- Environmental Rehabilitation Works with Various Requirements
- Rehabilitation of Wetlands, Rivers, Rubbish dumps, Mine areas and damaged Construction areas
- Shaping, soiling, and re-vegetating areas
- Stabilization of high erosion areas
- Hydroseeding
- Establishment Maintenance
